

# The Crane Puller

**Automobile Owners  
Dealers, Repairers**

**Do Your Pulling with a**

**No. 2 Crane Puller**

**Takes Off Automobile Wheels  
Without Damage**

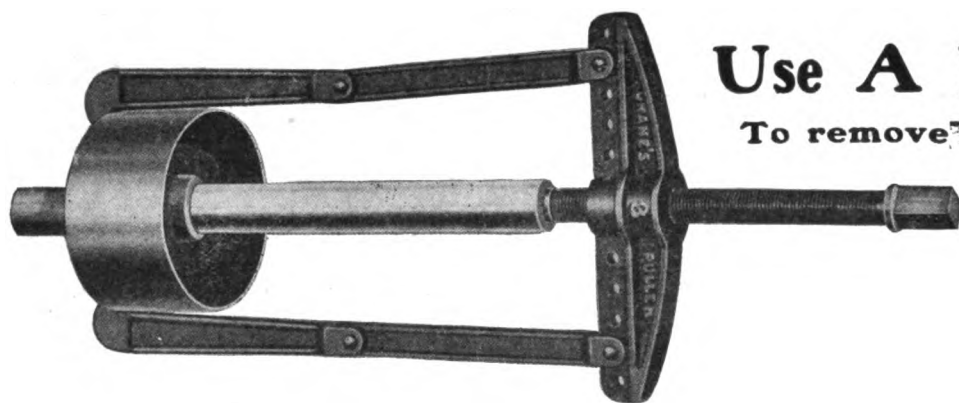

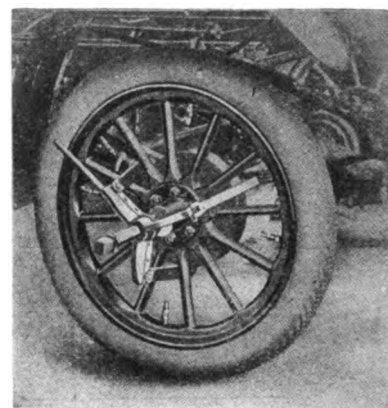

Price, with two sets arms (9 in. and 6 in.)	\$8.40
Price, with one set arms (9 in. or 6 in.)	7.20

## The Three Arm Crane Puller

With this tool a wheel can readily be removed by one man. The handle in one of the ends of the beam is to keep it from turning while pulling against it with a wrench. A cord is tied around the arms to keep them from dropping off the work.

The arms are the same as are used on the regular No. 2 and No. 3 pullers, and anyone having a No. 2 or a No. 3 can get an extra arm and three-arm beam to go with same.

Price of No. 2 size, complete	\$ 9.60	Of beam and one arm	\$5.50
Price of No. 3 size, complete	12.00	Of beam and one arm	6.30

**Use A No. 3 Crane Puller**

**To remove the wheel from a long shaft.**

**Will stand 10 tons strain.**

**Takes Off Cams, Fly Wheels, Pulleys, etc.**

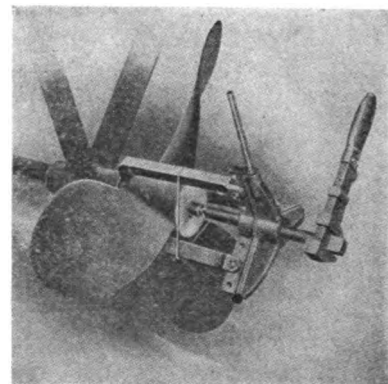

Price, with one set arms	\$9.00
Price, with extension arms	11.00

## The Three Arm Crane Puller Removing a Propeller

One man can easily remove a propeller with this tool. The handle in one of the ends of the beam is to keep it from turning while pulling against it with a wrench. A cord is tied around the arms to keep them from falling off the work.

The arms are the same as are used on the regular No. 2 and No. 3 pullers, and anyone having a No. 2 or a No. 3 can get an extra arm and three-arm beam to go with same.

Price of No. 2 size, complete	\$9.60	Of beam and one arm	\$5.50
Price of No. 3 size, complete	12.00	Of beam and one arm	6.30
